Therefore as such any recommendations made in this publication, the reader must take due care and always seek the advice of a Financial Adviser before taking action.

**Investment Advice:**

Whether it is trading or investing, one should never leave yourself expose to more than 20% of your total funds in equities/securities. Ensure that you have sufficient funds for your other needs. Protect yourself against any eventuality that you may lose your funds. Investing in equities/securities is very risky and you should consider carefully before investing. Even with the advice of experts and professionals, your investment in equities/securities can still go wrong. Therefore proceed with care.

Equities/Securities are complex financial instruments and typically involve a high degree of risk and are intended for the sale only to sophisticated investors who are capable of understanding and assuming the risk involved. The market value of any structured equity/security may be affected by changes in economic, financial and political factors, time to maturity, market conditions and volatility. An investor interested in purchasing a equity/security or equities/securities should conduct its own investigation and analysis of the product and consult with its own professional advisers as to the risks involved in making such a purchase.
